

THE FRONT YARD NURSERY'S POTTED ROSE SELECTION FOR 2012

CLIMBER: 8'-12'. Cluster of blooms, most abundant in spring and fall. Good for walls, trellises and fences.

FLORIBUNDA: 2'-4', Hybrid tea & Polyantha cross (the best of the Polyantha – hardy, low, continual bloom, & the best of the Tea – flower form and foliage). Bears flowers in clusters. Good for borders, mass plantings, walkways and beds.

GRANDIFLORA: Shrub 4'-6', Med. Size blooms on individual stems suitable for cutting. Flowers borne singly or in clusters. Hybrid tea and floribunda cross.

HYBRID TEA: 5'. Large, well formed blooms on long single stems for cutting. Good specimen for cut flowers.

MINIATURE (MINI): 1'-2', Use as ground covers, climbers, shrubs, or cascading. Small flowers and leaves, compact.

SHRUB: Free-blooming plants with differing flower sizes and forms. Vigorous, disease resistant, hardy, easy to grow. Usually grown on own root. Good for group plantings.

Shade tolerant indicates a rose that can thrive in filtered sun or in part shade. It still requires some sun and will not perform in deep shade (i.e. morning sun & afternoon shade).

HYBRID TEA, GRANDIFLORA, FLORIBUNDA, & SHRUBS

VARIETY	TYPE	FRAGRANCE	DISEASE RESIST.	COLOR	Nursery Notes
